

Differences between Lectures A and B

Similarities:

- We will both use cover much of the same material
- We will both have homework submitted through Moodle

Differences:

- Different textbooks
- I will not cover number theory or state diagrams (B lecture may)
- I will cover “trees” differently (as handled by Rosen)
- I will give examples from computational biology to illustrate techniques and concepts
- The B lecture will have in-class examlets, the A lecture will have two midterms (evenings)
- The A lecture will have an honors section
