

Reordering Operations is Not Always Helpful

In particular, many banks,

- seeing the “Subtract” operation first,
- approve the operation
- but also subtract an additional overdraft “protection”* fee of **\$50**.

In the end, your account has

$$5 - 7 - 50 + 500 = \$448.$$

*Protection in the mob/
banking sense.

Feel safe knowing
you won't be caught
off-guard again.
