

Gopher and HyperCard: Examples of Early Tech

Later Internet services such as **Gopher**

- allowed clients to **explore text documents**
- spread **across multiple servers**
- such as guidance on the requirements for undergraduate curriculum at UIUC.

THE GOPHER PROJECT
-----

Welcome to GOPHER!  Gopher is a slim, powerful, and
fast way to present information in a hierarchical catalog online.
Gopher actually predates the Web -- although most web browsers
make excellent gopher browsers too.

Good places to start are the "Why Gopher?" and "Using Gopher"
areas!

```

Apple's **HyperCard**

- enabled users to **move from page to page**
- **by clicking on a keyword** or an icon.
- **Sound familiar?**
