This is a forest, with trees in all directions. To the east, there appears to
be sunlight.

Forest Path
This is a path winding through a dimly lit forest. The path heads north-south
here. One particularly large tree with some low branches stands at the edge of
the path.

Up a Tree
You are about 10 feet above the ground nestled among some large branches. The
nearest branch above you is above your reach.
Beside you on the branch is a small bird's nest.
In the bird's nest is a large egg encrusted with precious jewels, apparently
scavenged by a childless songbird. The egg is covered with fine gold inlay,
and ornamented in lapis lazuli and mother-of-pearl. Unlike most eggs, this one
is hinged and closed with a delicate looking clasp. The egg appears extremely
fragile.
