

What assistance is available to you?

- Lectures
 - Lecture slides will be placed online at course website
 - “Tentative” version before lecture
 - “Final” version after lecture
- Asking Questions (most preferable first)
 1. **Piazza**: Your first stop for all questions (see if your question has already been asked)
 - We will try to ensure that every question is answered within 24 hours of posting (during weekdays).
 - Do not post solutions or code on Piazza – that’ll immediately earn you a zero on the HW/MP.
 2. **Office Hours** (posted on course website): Every weekday has at least one office hours scheduled.
 3. **Email staff** mailing list (don’t email individual instructor/TA except for private issues)
- Course Prerequisite: CS 241 or ECE 391 or equivalent OS/networking course (latter need instructor permission)
