Overview

- Outage occurred on 23rd September, 2010
- FB Unreachable for 2.5 hours (worst in past 4 years)
- Facebook published post-mortem
  - https://www.facebook.com/notes/facebook-engineering/more-details-on-todays-outage/431441338919
- Not our goal to say Facebook is a bad infrastructure
  - In fact, after the outage, Facebook is still market leader in social networks
  - Facebook fixed infrastructure to prevent recurrence
