Push vs. Pull

- So that was "Push" gossip
  - Once you have a multicast message, you start gossiping about it
  - Multiple messages? Gossip a random subset of them, or recently-received ones, or higher priority ones
- There's also "Pull" gossip
  - Periodically poll a few randomly selected processes for new multicast messages that you haven't received
  - Get those messages
- Hybrid variant: Push-Pull
  - As the name suggests
