Insert

Insert a row entry for new employee Sally

```
db.employee.insert({
            name: "sally",
            salary: 15000,
            designation: "MTS",
            teams: [ "cluster-management" ]
            })`
```
