

# Flat Mirror Summary

- Image appears:
  - Upright
  - Same size
  - Located same distance from, but behind, mirror
  - Facing opposite direction: Left/Right inverted
  - Virtual Image: Light rays don't actually intersect at image location.

## Preflight 16.1

Why do ambulances have  
“AMBULANCE”  
written backwards?

So you can read it in  
your rear-view mirror!
