

This week and next week are critical for the course:

Week 3, Lectures 7-9:

Light as Particles
Particles as waves
Probability
Uncertainty Principle

Week 4, Lectures 10-12:

Schrödinger Equation
Particles in infinite wells, finite wells
Simple Harmonic Oscillator

Midterm Exam Monday, week 5 (Feb. 11)

It will cover lectures 1-12 (except Simple Harmonic Oscillators)

Practice exams: Old exams are linked from the course web page.
Review Sunday before Midterm

Office hours: Sunday and Monday
